

Knowd × Monni

Step 1 Agreement

Migration, performance & tracking foundation

Between Monique Jansen (Monni) and Sparrow & Pukeko Ltd t/a Knowd (Lex)

Date of agreement: 10/04/2026

1. The parties

Client	Monique Jansen, trading as Monni — monni.co
Supplier	Sparrow & Pukeko Ltd t/a Knowd, trading as Knowd — knowd.nz — represented by Lex
Scope	This agreement covers Step 1 only. Subsequent steps require a separate written agreement.

2. What gets built in Step 1

Knowd will design, build, and deploy the following within four weeks of the agreed start date. All items below are included in the fixed fee.

Deliverable	Description	Status
Site build	New Monni site on Next.js (Vercel). Connected to Monique's existing Shopify Basic plan. Automated product sync via webhooks — Shopify updates reflect on the site within seconds.	Included
Products migrated	Full Tea and Tonic catalogue moved to Monni. Collections structured correctly for headless access.	Included
Page speed	Images, fonts, and assets optimised. Target: LCP under 2.5s. Lighthouse score measured and documented before and after.	Included
Attribution & tracking	GA4 cross-domain measurement (monni.co to pay.monni.co), UTM persistence through checkout, Shopify Customer Events pixel. Configuration documented and locked per Section 5.	Included
SEO foundations	Schema.org structured data, canonical tags, XML sitemap, meta framework. All pages indexable from day one.	Included
monni.co live	Squarespace retired. Domain pointed to new site. 301 redirects in place so no existing Google ranking is lost.	Included
Tea & Tonic CTA fixes	Improved calls to action on the current site while the new build runs in parallel.	Included

Performance dashboard	Looker Studio dashboard connected to GA4 and Shopify. Shows revenue, traffic, conversion rate, AOV, and email contribution. Shared access for both parties.	Included
------------------------------	---	-----------------

3. Fees — Step 1

Step 1 is priced under Option B (reduced fee + revenue share). The fee below applies to Step 1 only.

Step 1 fixed fee	NZD \$1,500 + GST
Payment terms	100% (NZD \$1500 + GST) on site launch. No deposit required.
Invoicing	Knowd invoices via email. Payment due within 7 days of invoice date.
Infrastructure costs	Monni carries all third-party infrastructure costs (Vercel ~USD \$20/month, Shopify \$29/month already in place). Knowd will flag any additional costs before they are incurred.

4. Revenue share (Option B)

From the date the Step 1 site launches, Knowd earns a percentage of Monni's e-commerce revenue as set out below. This continues until either party triggers the exit process defined in Section 7, or until the parties agree in writing to convert to a fixed retainer (expected at the two-year mark).

Revenue type	Rate	Notes
New customer — organic / direct / email / unpaid social	8% of order value	New customer = first order placed (Shopify orders_count = 1 at time of order)
Returning customer — organic / direct / email / unpaid social	4% of order value	Returning customer = any order after the first (Shopify orders_count > 1)
Any customer — paid ad attributed	4% of order value	Last-click UTM source classified as paid (cpc, meta, google-ads etc.)
Wholesale / offline / manual orders	0%	Orders not placed through the Monni e-commerce front-end are excluded

Monthly caps (+ GST)

Year 1 cap	NZD \$1,200 + GST per month. Revenue share does not exceed this regardless of revenue.
Year 2+ cap	NZD \$2,500 + GST per month.
Step-down	Once cumulative e-commerce revenue reaches NZD \$300,000, the parties agree to review rates and caps in good faith with the aim of keeping the arrangement balanced as the business scales.

Invoicing and reconciliation

Reporting period	Calendar month.
Report due	Knowd sends a revenue report by the 5th of the following month, drawn from the shared Looker Studio dashboard.
Invoice due	Revenue share invoice issued with the report. Payment due within 14 days.

Minimum	NZD \$350 + GST per month for the first six months post-launch, regardless of revenue, to cover Knowd's ongoing support and availability.
Disputes	If either party disputes a line item, they flag it within 7 days of the report. Undisputed amounts are paid in full. Disputed amounts are resolved within 14 days.

5. Attribution — locked configuration

Attribution is based on GA4 as the single source of truth. The configuration below is locked for the duration of this agreement. Neither party may change it without written consent from both parties.

GA4 property ID	To be recorded here at launch: _____
Attribution model	Data-driven attribution (GA4 default). If unavailable for this property, Last Click is used. Model recorded at launch.
Lookback window	30-day conversion lookback window.
Channel definitions	Organic search: google/organic. Direct: direct/none. Email: utm_medium=email. Unpaid social: instagram/social, facebook/social etc. Paid: utm_medium=cpc or paid_social or equivalent.
UTM discipline	All paid campaigns use strict UTM tagging before launch. All email campaigns tagged utm_medium=email. Untagged traffic defaults to direct.
Customer classification	New vs returning customer determined by Shopify's native orders_count field on the order object at the time of purchase. This classification is pulled from the monthly Shopify revenue export and cross-referenced with GA4 revenue.
Grey areas	Any transaction that cannot be cleanly classified is flagged in the monthly report and resolved in a brief monthly true-up conversation. Both parties agree to approach this in good faith.

6. Ownership and access

Assets	All work created for Monni under this agreement — site, codebase, design, content, and tracking configuration — is owned by Monique Jansen, subject to standard third-party licences (fonts, Shopify platform, stock imagery etc.).
Accounts	All platforms (Shopify, Vercel, GA4, Google Search Console, email platform, domain registrar) are set up in accounts owned and billed by Monique Jansen. Knowd operates as a collaborator with sufficient access to do the work.
Repository	The site codebase lives in a GitHub repository owned by Monique Jansen or a GitHub organisation she controls. Knowd is added as a collaborator with Maintain access.
Credentials	All account credentials are managed by Monique Jansen. Where Knowd requires access, credentials are shared via a secure method (e.g. Dashlane secure share). Knowd does not retain master passwords.
Handover notes	At the conclusion of Step 1, Knowd provides a one-page handover document listing all accounts, access roles, and platform notes sufficient for another developer to continue the work.
Dashboard access	Monique Jansen retains full access to all underlying accounts and the shared Looker Studio dashboard at all times. Access is never gated through Knowd.

7. Exit terms

Kill fee	None. There is no kill fee attached to this agreement.
Step 1 fee	The Step 1 fixed fee is earned on delivery of the completed site. If the engagement ends before launch, the 50% deposit is non-refundable and the second 50% is not due.
Revenue share	The revenue share model continues until the two-year anniversary of the launch, until cumulative e-commerce revenue reaches NZD \$300,000, or until both parties agree in writing to change to a fixed retainer. Regardless of these milestones, either party may cancel the arrangement at any time by providing 60 days' written notice, after which the revenue share model will be terminated.
Two-year review	At the two-year mark, both parties agree to review scope and responsibilities and transition to a fixed monthly retainer with a defined SLA if the relationship continues. Terms to be agreed in writing at that time.
After exit	On exit, Knowd removes its collaborator access from all accounts within 14 days. All assets, accounts, and data remain with Monique Jansen. No trailing percentage or ongoing fee applies after the exit date.

8. General

Governing law	New Zealand. Any dispute is first attempted to be resolved between the parties directly. If unresolved after 30 days, either party may refer the matter to mediation.
Amendments	Any change to this agreement must be agreed in writing by both parties. Email confirmation from both parties is sufficient.
Subsequent steps	Steps 2-5 described in the proposal are not covered by this agreement. Each step requires its own written agreement before work begins.
Confidentiality	Both parties treat the commercial terms of this agreement as confidential.

9. Signatures

By signing below, both parties confirm they have read and agree to the terms of this agreement.

Client

Monique Jansen

Date: 04/14/2026

Supplier

Lex — Sparrow & Pukeko Ltd t/a Knowd

Date: 04/10/2026

This is a plain-language agreement intended to be clear and fair to both parties. It does not constitute legal advice. Both parties are welcome to seek independent legal review before signing.
